

# Exclusively Yours!

## Custom Signature Yarns

*Designed just for you by...*

Still River Mill LLC is excited to offer our new custom yarn service, *Exclusively Yours!* This program is designed to create custom yarn batches specifically for shop owners, designers, or anyone interested in designing their own yarn. Our experts can guide you in choosing one of our unique blends or a blend of your own. Choose from our vast selection of imported and domestic fibers ranging from high-end exotics to local farm raised fleeces. Each batch will be custom processed to your specifications.

### **We can help you to have a unique offering in your shop or product line.**

*Exclusively Yours!* designed yarns are perfect for:

- Keeping customers coming back with something new
- Providing customers with exotic blends to match their yarn budgets
- Class Projects
- Expressing your uniqueness

### **Production Details**

*Minimum 2lb batch* - For best return, a minimum of two pounds is required for each production run. This means 36 skeins weighing 25g, 18 skeins weighing 50, or 16 skeins weighing 2oz skeins, etc.

*Large Batch Discounts*- There is a 5% processing discount for batches over 5lbs, 10% discount on batches over 10 lbs and 15% discount on batches over 15lbs.

*Our Label or Yours* - You can choose to provide your own label, or we can provide one for you.

### **Terms**

50% deposit required for order, remainder due on completion and prior to shipment.

### **Fibers**

The following is a list of fiber that we have "on hand" at all times. We strive to provide sourcing for any fiber you might require. Please contact us for specific price and fiber availability.

### **About Us**

At Still River Mill it is very important to us to comply with organic processing standards, employ energy recovery methods and recycle where we can. We use a certified organic scouring agent, organic processing oils, and Greener Shades™ dyes which are non-toxic, non-hazardous, and non-chrome and comply with the Organic Trade Association's standards for Organic Fiber Processing. Each batch of every order receives acute attention and care from our expert mill staff and we pride ourselves on a reputation for exceptional quality.
